

WORK BOOK 2020

CELEBRATING 37 YEARS OF TENACITY

IF IT AIN'T SIMPLE, IT'S BS.

Life isn't that complicated.

- ✓ Work hard.
- ✓ Get plenty of sleep.
- ✓ Eat your veggies.
- ✓ Wash your hands.
- ✓ Be nice.

A KLEIN TOOLS COMPANY

Even the complicated stuff isn't all that complicated really. It's just made that way by those who peddle it, probably because at its core, it's really nothing but BS. Chicanery. Subterfuge. Jiggery-pokery. If it weren't, it'd be easily called out for the snake oil it is.

Einstein said if you can't explain it to a six-year-old, you don't understand it yourself. Lincoln uttered all of 272 words in the Gettysburg Address. In other words, if you got the goods, spare the show and get to the point.

So here, within these pages, you'll find the latest collection of Tenacious Work Gear® laid out in all of its battle-tested, unembellished truth – simplified, streamlined and 100% BS-free.

After all, if anything should be uncomplicated, it's your safety. The day it becomes anything other than that, run as fast as you can in the other direction. We'll be here – ready to help you succeed at your most critical task of every workday: making it home in one piece.

Simple as that.

THE SOUND OF SAFETY

Raindrops on roses and schnitzel with noodles is fine and dandy if you're trying to hit high E above middle C atop the Alps. But here in the trenches of the workplace our favorite things start with PPE. These are the three pillars of safety upon which our Tenacious Work Gear® is built.

PROTECTION

ERGODYNE GEAR IS THERE FOR YOU WHEN THE DOG BITES AND THE BEE STINGS. AND IF YOU'RE FEELING SAD, SHOOT US A DM AND WE'LL TALK IT OUT.

PREVENTION

IT'S THE BEST DEFENSE AGAINST WORKSITE WHOOPSIE-DAISIES AND OH SH!TS, AND WE GOT THE GOODS TO KEEP YOU AND YOUR CREW SAFE, SOUND AND WORKING IN HARMONY, VON TRAPP-STYLE.

ELEMENTS

AND LAST BUT NOT LEAST, WE'RE HERE TO GET BETWEEN YOU AND THE ELEMENTS. WE'RE TALKING EVERYTHING FROM GALE-FORCE WINDS TO MORALE-MELTING HEAT WAVES. LET US DECK YOU OUT IN SOMETHING A LITTLE MORE ADVANCED THAN WARM WOOLEN MITTENS TO TAKE THE EDGE OFF.

Put it all together and you're running at peak PPE performance, ready to climb every mountain and ford every stream. Let's Make the Workplace a Betterplace™.

IT'S MORE THAN JUST (REALLY GOOD) GEAR.

**UTTERLY OBSESSED & INTENSELY COMMITTED
TO WORKER SAFETY SINCE 1983.**

OUR MISSION:

Make the Workplace a Betterplace™. But victory (aka zero workplace injuries) doesn't come by throwing gear at safety risks and calling it good.

INNOVATION

Necessity is the mother of invention. Everything we design, build and offer is guided by a full commitment to deeply knowing what safety pros and their crews are up against day after day.

REACH

When we come up with new solutions for a safer workplace, you better believe we shout it from the mountain tops – and everywhere else for that matter. From tradeshow and showroom floors to inboxes, industry pubs, social feeds and more – we simply will not be ignored.

KNOWLEDGE

It's true that Tenacious Work Gear® imbues safety super powers to all who don it. But operator error is its kryptonite. That's why we go above and beyond when schooling folks in the successful use of our gear – whether it's a webinar, field call or on campus at Tenacious University.

RESOURCES + TOOLS

Some smarty pants philosopher once said “Without tools, man is nothing. With tools, he is all.” That's why we make sure all of our beloved authorized distributors have the tools needed to deliver safety solutions whether online, in-store or out in the field.

WORKER COLLABORATION

When you know better, you do better. But the only way to know better is to better know the ones you're trying to keep safe and productive. Our army of Tenacious Testers™ provides the intel, insight and impetus for our ever-evolving definition of what innovative and exceptionally well-crafted safety gear can and should be.

MOBILIZATION

It takes critical mass to turn a mission into a movement. And the Tenacious Nation organizes all those indefatigable defenders of worker safety into a legion of thousands (workers, safety pros, DIYers and more), then plugs them in to our ever-flowing pipeline of new solutions, industry hot takes, events and maybe even a giveaway or two as a nod of appreciation for their show of solidarity.

Come one, come all! Head over to ergo.zone/go to connect with us and stay in the know on all things orange.

SEE IT HERE
FIRST.

ALWAYS INNOVATING,
NEVER STAGNATING.

Churning out the most
Tenacious Work Gear® known to man
is a nonstop fight against the forces
of complacency and mindless trends.
And the moment you think you've won,
you've definitely lost.

LABELING 101: THE HANDBOOK ON HAND PROTECTION

EN388: 2016

All ProFlex® Gloves are tested to EN 388, measuring and scoring four “mechanical risks”: abrasion, cut, tear and puncture. Gloves engineered to provide enhanced cut protection are also tested to cut-resistant standards ISO 13997 and ANSI/ASTM F2992. Select Dorsal-Impact Reducing Series Gloves meet the impact protection criteria of EN 388. Select Anti-Vibration Gloves meet ISO 10819/ANSI S2.73, the global standard for anti-vibration. All this info can be found on the interior label of our gloves.

Confused? Read on!

- Abrasion Resistance (0-4)
- Blade Cut Resistance (0-5)
- Tear Resistance (0-4)
- Puncture Resistance (0-4)
- ISO Cut Resistance (A-I; X = Not tested)
- Impact Protection (P = PASS)

ANSI 105-2016 // ASTM F2992-2015

ANSI/ASTM Cut Protection is noted as: **ANSI/ASTM CUT LEVEL A#**
(Levels A1-A9)

ISO 10819:2013 / ANSI S.2.73-2014

Compliance with the ISO 10819:2013
Vibration-Reducing standard is noted as: **ISO 10819:2013**
ANSI S.2.73-2014

HAVS IT YOUR WAY

AND REDUCE THE RISK OF HAND-ARM VIBRATION SYNDROME

Certain models in Ergodyne's Anti-Vibration Series meet the strict requirements of ISO 10819-2013/ANSI S2.73-2014, the global standard for anti-vibration gloves that serves as the last line of defense in the fight against HAVS. Choose from three different models with AVC™ (Advanced Vibration Control) Technology in the palm to suit your vibration situation.

9002

ANSI/ISO-CERTIFIED FULL-FINGER ANTI-VIBRATION GLOVES

There's nothing basic about this base model. Full-length AVC™ Padding reduces harmful vibration from tools and equipment while the gripping palm provides a secure hold on handles and controls. Glove up and go.

9012

ANSI/ISO-CERTIFIED ANTI-VIBRATION GLOVES + WRIST SUPPORT

Vibrating tools are often heavy and the tasks they tackle can cause repetitive motion strain. Talk about double trouble. Featuring a built-in wrist support with patented Open-Center Stay™ to go with an AVC™ Palm, the 9012 offers maximum protection and support.

9002

ANSI/ISO-CERTIFIED ANTI-VIBRATION

- ANSI S2.73-2014/ISO 10819:2013-certified protection
- Full-length AVC™ padding under gripping palm
- Hex-stretch knit + breathable spandex construction
- Neoprene knuckle pad
- Low-profile molded hook & loop closure with ID

9015F(x)

ANSI/ISO-CERTIFIED ANTI-VIBRATION GLOVES + DIR PROTECTION

From jackhammers to Jack's hammer, sometimes vibration on the palm also comes with hazards to the backside (of the hand). Molded TPR armor on the 9015F(x) protects the dorsal area from flying debris and impacts as AVC™ Padding does its AV duty.

9001

FULL-FINGER IMPACT

PROFLEX®

PICK THE RIGHT PAIR: A SAFETY MANAGER'S GUIDE

Protecting those meat hooks from the assorted daily calamities they face at work is critical for a jobsite's efficiency and performance. But picking the right pair isn't always an easy choice.

STEP 1)

DO A JOB HAZARD

ANALYSIS // Start with a systematic breakdown of a particular task's steps and the hazards associated with each step.

STEP 2)

AVOID OVERWHELMING WITH OPTIONS // Offer workers 3-4 quality choices and let them pick. Comfort is often as important as the glove's characteristics, and that is generally a matter of personal preference. Unless the task is very specific and safety-sensitive, you don't need to require a specific glove.

STEP 3)

RULE WITH AN IRON FIST // If the job and the hazard DO require a specific type of glove, then require their use and explain why. Examples: High cut hazards; prolonged vibration and impact exposure.

STEP 4)

KEEP THE SUGGESTION BOX OPEN // Welcome feedback from the crew. When workers can pick their safety equipment, they are more likely to actually wear it. Kinda the whole point, right?

PROFLEX® HINGED KNEE PADS

BEND THE KNEE

A certain King in the North would have been lucky to have these when he took a knee. Oh shoot, was that a spoiler? Our bad. While you may not be deciding the fate of the Seven Kingdoms, you still need comfortable protection in your workday grind. Enter the new ProFlex® Hinged Knee Pads.

FLEX IN EFFECT

One of the biggest complaints workers have with knee pads is that they “crawl out” of the knee pad when they’re working on their knees. The hinged design allows knees to flex and move more naturally, walking or crawling.

SMART STRAPS

The straps are located away from the back of the knees for comfort and less irritation. This design brings the knee pad up and hugs the lower thigh, which keeps the pad securely in place even when walking or crawling.

CUSHION AND COMFORT

Built with gel foam for lightweight cushioning that won’t break down or compress over time.

CAP STYLES

Curved rubber cap offers stability with the mobility to slide or pivot. The soft rubber cap grips and protects for stationary work.

450

GEL FOAM HINGED - SOFT CAP

- Hinge design keeps knee pad secure
- Gel foam + EVA foam provides lightweight cushion
- Slip-resistant durable 420D nylon-rubber soft cap
- 1680D ballistic nylon outer shell

PROFLEX® KNEELING PAD FEATURES

DURABLE FOAM PADDING Made with high density, thick NBR foam rubber that will not compress over time, protecting knees against hard surfaces

LIQUID RESISTANT Water resistant and petroleum resistant construction make it perfect for everything from bath time to work in the garage

MORE CUSHION = MORE COVERAGE
Designed to cover larger work surfaces

CONVENIENT HANDLE Kneeling pad has a built-in handle making it easy to carry and convenient to hang for storage

MULTIFUNCTIONAL Use to support pressure away from other areas; cushion elbows, shoulders, hips and other body parts when working in tight, constrained, twisted postures

PATENTED OPEN-CENTER STAY™

Unlike traditional stay configurations positioned directly over the carpal tunnel, our stay is uniquely designed with an open center to reduce pressure on the median nerve. With a contoured design that follows the wrist's natural shape, the patented, molded stay offers greater worker comfort and compliance.

MAKE IT CUSTOM!

HERE'S THE DRILL: CUSTOM LOGO PROGRAM Because we have so many options and styles of products available to custom logo, we can do almost anything.

YOU GIVE US:

- Suitable digital art files or camera-ready artwork. (EPS-format files work best but large, hi-res TIF or JPG files [300+ dpi] work too.)
- All necessary PMS/Pantone colors.
- Approval of a digital mock-up.

WE GIVE YOU: A product with a look all your own. Minimums vary based on the type of product. Don't worry, it's low.

Call Ergodyne Customer Support today to answer all your custom logo questions ... we'll make it easy for you to look good!

SKULLERZ® HEAD PROTECTION

Flying objects. Low clearance. Headaches waiting to happen. Whatever skullduggery abounds on the job, we've got your cranium covered with worker-approved head protection.

HARD HAT SERIES

Of course Skullerz® Hard Hats are tested to meet and exceed industrial safety standards. But it's the comfort (perfectly balanced suspension, airy ventilation, size adjustment knob to dial in the perfect fit) that makes it the hard hat's crowning achievement.

MAKE IT CUSTOM!

Call Ergodyne Customer Support today to answer all your custom logo questions ... we'll make it easy for you to look good!

HERE'S THE DRILL: CUSTOM LOGO PROGRAM Because we have so many options and styles of products available to custom logo, we can do almost anything.

YOU GIVE US:

- Suitable digital art files or camera-ready artwork. (EPS-format files work best but large, hi-res TIF or JPG files [300+ dpi] work too.)
- All necessary PMS/Pantone colors.
- Approval of a digital mock-up.

WE GIVE YOU: A product with a look all your own. Minimums vary based on the type of product. Don't worry, it's low.

HEAD PROTECTION // HARD HAT SERIES //

8972 LED

INCLUDED TOP PAD AND SWEATBAND ARE WASHABLE, REMOVABLE, MOISTURE-WICKING AND ANTI-MICROBIAL

ALL HARD HATS HAVE STANDARD SIZE SIDE ACCESSORY SLOTS

4-POINT SUSPENSION + MULTIPLE ADJUSTMENT POINTS FOR A CUSTOM FIT

OPEN WEB FRAME TO MAXIMIZE AIRFLOW AND FLEXIBILITY

NECK BAND PIVOTS FOR A MORE SECURE FIT

SKULLERZ® HARD HAT FEATURES

ALL DAY COMFORT Includes removable hard hat sweatband and top pad made of breathable, sweat-wicking and odor resistant, machine washable materials

IMPROVED SAFETY AND VISIBILITY AT NIGHT Integrated patent-pending headlamp slots on front and rear for use with the Skullerz® Hard Hat LED Light (available as an accessory or with the LED)

BREATHABLE Flexible open frame and 4-point suspension improves air circulation

EASY SIZE ADJUSTMENT Easy, one-handed adjustment knob pivots to clear bandana or ponytail knots and improve fit

WEAR FORWARD OR BACKWARD Cap-style hard hat can be worn forward or reverse donning

HARD HAT ACCESSORIES Slotted and mounting locations for common hard hat accessories like ear protection and face shields. Chin strap accessory mounts to dedicated mounting points on the suspension. Hard hat stickers sold separately.

SQUIDS® LANYARDS

An apple dropping off of a tree during a mathematician's summer idyll in the English countryside is one thing. Sledge-hammers plummeting forty stories onto a busy worksite is a recipe for an ambulance. Spare yourself that sinking feeling with our smorgasbord of ANSI/ISEA 121-2018 compliant dropped objects solutions.

TOOL TETHERING KITS

Pairing existing Squids® tool attachments and tool lanyards, workers can choose a tool tethering kit and be confident they've got exactly what they need for comprehensive fall protection safety.

ARSENAL® GEAR & TOOL STORAGE

OK, so maybe tool storage isn't exactly up there with world peace, global warming, or making your mortgage payment. No worries. We got it in the bag with Arsenal® Gear & Tool Storage. Thoughtfully designed so you don't have to think too hard about the best way to bring what you need to your next regularly scheduled conundrum.

HOIST BUCKET SERIES

When you need to slug it out in the trenches, these bad boys definitely punch it up a notch with a wicked combo of strength and performance that make all challengers look like tomato cans.

RATED EQUIPMENT

There are hundreds of bags, buckets, pouches and holsters out there, but your standard five-gallon pail ain't gonna cut it up there. Portable containers that are hoisted and stationary containers that are carried must be rated.

STATIC TESTING Portable and stationary containers should be statically pulled or loaded.

INVERTED STATIC TESTING Containers designed to carry contents that cannot be tethered should have a top or closure that is tested upside down.

DYNAMIC TESTING Containers should have drop testing done on attachment points meant to anchor tool lanyards.

ARSENAL® TOOL & GEAR STORAGE:

CHILL-ITS® COOLING PRODUCTS

Chill-Its® cooling products provide many ways to suck it up when the heat rages and sweat starts to pour. If nature turns up the heat, don't sweat it. You can always turn to Chill-Its® to bring a frosty layer of comfort to any workplace inferno.

HEAD & NECK SERIES

Whether it's protection from the sun, keeping a cool head or sopping up the sweat, Chill-Its® turns hot and bothered into heat-beating happiness.

FIND OUT MORE ABOUT THE TECHNOLOGY THAT GOES INTO THE FULL LINE OF ERGODYNE COOLING PRODUCTS AT: ERGODYNE.COM

DRY EVAPORATIVE TECHNOLOGY EXPLAINED...

HOW DOES THE DRY EVAPORATIVE TECHNOLOGY WORK?

1. Activate vest or cap
 - Fill vest or cap with water and distribute water evenly
2. Inner dry tech membrane does its thing
 - Technology gradually releases water through evaporation from the inside out - keeping you, cool, comfortable, and most importantly, dry.

HOW COOL WILL IT GET?

- Will cool up to 15°F (10°C) below ambient air temp
- *Note: high levels of humidity (60-80%) can affect cooling ability

HOW MUCH WATER IS NEEDED?

- Vest: 16 - 20 oz depending on size (400-600ml)
- *Note: more water ≠ better cooling, DON'T OVERFILL.

HOW LONG DOES THE COOLING EFFECT LAST?

- Up to 3 days depending on environment.

HOW TIGHT SHOULD THE VEST FIT?

- As close to the skin as possible - the closer it is, the more cooling you feel
- Recommend wearing over a lightweight t-shirt

CAN THE VEST BE WORN UNDER OTHER GARMENTS?

- The vest needs airflow to breathe so a mesh vest is fine, but heavier layers are not recommended.

DO I NEED TO CLEAN THE INNER MEMBRANE?

- NO! Leave it be. It has an anti-microbial treatment that will keep itself clean and free from any bacteria or fungal growth.

CAN I WASH THE PRODUCT?

- You sure can, but keep that cap CLOSED.

6685

DRY EVAPORATIVE COOLING VEST

- Provides immediate and long-lasting cooling
- Up to 3 days of dry cooling
- Activate with 13-20oz (400-600ml) of water
- Lightweight, durable and machine washable
- Easy to use, watertight filling cap

ADJUSTABLE MECHANICS

6094

What is CPAI-84??

The CPAI-84 (Canvas Products Association International) Standard is widely used in the industry and has been adopted by states such as California and New Jersey. It provides testing methods for evaluating the flame resistance of fabric and other pliable materials in camping tentage. It also provides performance criteria and certification guidelines for suppliers (like us!) and labeling requirements that identify a tent as being constructed of flame-resistant materials and caution against action detrimental to those flame-retardant finishes.

TREX[®] FOOTWEAR ACCESSORIES

Have a nice trip? Just kidding. Get up offa that thang and get into something new. May we suggest TREX™ Ice Traction? With different configurations and cleat styles to match the task at hand (at foot?), you'll avoid going down like a sack of potatoes with every misstep. Have a nice fall! Sorry, we couldn't help ourselves.

ICE TRACTION SERIES

Wrap a pair around your ordinary work boots and instantly turn the slick glare of tailbone-busting winter slip-ups into a walk in the park.

WHAT SIZE DO YOU NEED?

Place the index finger OF YOUR RIGHT HAND next to the dotted line as shown. To find your proper size, refer to the closest line to the right side edge of your hand.

Align index finger with the dotted line at left for optimum grip and finger control, glove should fit snug.

Use this "handy" diagram to determine which ProFlex® Glove best fits your mitts.

SIZE UP THE SITUATION

Improperly sized gear is a prime cause of heartache and sadness. Remember when you showed up at school wearing high-water pants? Of course that's nothing compared to the crack-tacular combination of too-short shirt and too-loose pants. Don't let these calamities occur. Your gear will be more effective and comfortable if you choose appropriate sizes.

CHEST: Measurement should be taken around the fullest part of the chest with arms down, just under the arms and across the shoulder blades.

WAIST: Measure around waist (not pulling tightly) at the height you prefer to wear the waistband.

INSEAM: Take a pair of pants that fit you well and measure from the crotch to the bottom of the leg.

● WE STAND BEHIND EVERY DAMN THING WE MAKE ●

AND GUARANTEE OUR PRODUCTS WILL BE
FREE OF DEFECTS IN MATERIALS AND WORKMANSHIP
TO THE ORIGINAL PURCHASER FOR THE LIFE OF THE PRODUCT.

(DAMAGE, ABUSE, AND/OR NORMAL WEAR AND TEAR ARE NOT COVERED.
LET'S LEAVE OUR LAWYERS OUTTA THIS, HUH?)

STEEL-PLATED, ROCK-SOLID, GOOD AS GOLD GUARANTEE.

Do not burn yourselves out. Be as I am — a reluctant enthusiast... a part-time crusader, a half-hearted fanatic. Save the other half of yourselves and your lives for pleasure and adventure. It is not enough to fight for the land; it is even more important to enjoy it. While you can. While it's still here. So get out there and hunt and fish and mess around with your friends, ramble out yonder and explore the forests, climb the mountains, bag the peaks, run the rivers, breathe deep of that yet sweet and lucid air, sit quietly for awhile and contemplate the precious stillness, the lovely, mysterious, and awesome space. Enjoy yourselves, keep your brain in your head and your head firmly attached to the body, the body active and alive, and I promise you this much; I promise you this one sweet victory over our enemies, over those desk-bound men and women with their hearts in a safe deposit box, and their eyes hypnotized by desk calculators. I promise you this; You will outlive the bastards.

- Edward Abbey
