**TRADITION - SAFETY - VALUE**

# TRADITION - SAFETY - VALUE

In the past 25 years PAC has grown from the basement of company founder Dick Young to an operation with over 600 points of distribution in North America and sales in 38 countries around the globe. All this based on the concept of offering Top Quality products combined with the very best Customer Service. The cornerstone of all this is based on our outstanding staff members. They are committed to giving our customers the very best in assistance and overall customer service.

Our history of innovation and our collective experience guide PAC to create products to outlast and outperform. You can expect high quality and value when purchasing PAC products. We are highly recognized in the industries we serve for our attention to detail and overall customer service. Additionally, PAC products are tested to the highest standards and are compliant with National Fire Protection Association (NFPA) 1901 standards and MIL-S901D military shock specifications. And PAC offers a LIFETIME WARRANTY! If any PAC product fails under normal use it is replaced, free of charge.

In recent years we have grown beyond the Fire Market. We have applied our tool mounting knowledge to customers in Law Enforcement, Towing and Tow Vehicles, Homeland Security, Public Utility and the Green Industry, too. Check us out today!!

# PACTOOLMOUNTS.COM

To All PAC Dealers, Distributors and Customers -

In New York State, coronavirus cases are easing. Likewise, governments are relaxing travel and business restrictions, too. We hope for a return to normal life in 2021. For manufacturers, however, there are indications of difficult times ahead.

The most notable issue at hand is the **labor market**. Even as illnesses drop and vaccinations surge, our **domestic suppliers** are beginning to see labor shortages. This is not only affecting our suppliers. This is also affecting all industries across the nation. Juxtaposed to a sharp rebound in retail and manufacturing, the nation's ports are backing up with goods and materials. This situation means we can expect raw materials with longer times. We have already adjusted our expectations with our suppliers. PAC continues to monitor **lead times & quality** of our raw materials.

Another issue that will affect all industries in the near term is **cost**. Rising prices are expected as manufacturers face elevated costs such as: employee retention; hiring for a rebounding economy; rising raw material costs; rising energy costs; higher proposed taxes on corporations and business owners, and more.

In summary, currently there are no material impacts. Our suppliers are communicating labor shortages and higher prices on commodities, resins and packing material. The positive news, however, **is that PAC will not be raising prices for the remainder of 2021!**

Thank you for your support of PAC products! We continue to support first responders and our partners. We will come out of this stronger than before!

Greg Young  
VP, Performance Advantage Co.

The PAC TRAC Family of products are designed to provide a unique and versatile mounting surface for tools and equipment.

PAC TRAC boards have special grooves or channels which allow the assembly of tool boards and the mounting of brackets and equipment.

PAC TRAC boards are extruded from 6063-T5 aluminum and available in standard lengths of 50", 70" and 120". Boards are available in width increments of 3-3/4", 5-3/4" and 8-5/8".

The Pac Trac family of extrusion is NFPA 1901 Impact G Force & MIL Grade B certified as a mounting structure for testing tool brackets.

**ASSEMBLY METHODS**

Assemble tool boards with **Z-Mount** (P/N 7001 and 7001D)

Z & U Channel Kits come in pairs AND include hardware. Choose your board type and the number of sections. There is a corresponding frame kit to make your custom tool board assembly simple!

Assemble double sided tool boards with **U-Channel** (P/N 7009)

Our building houses the Greater Lancaster Fire Fighting Museum. We are dedicated to preserving the Fire History of Lancaster, NY. The newest exhibits feature two companies from Lancaster, NY; fire fighting innovators - Young Fire Equipment and Scott Aviation!

Jerry would be glad to give a tour!  
Email [Jerry@pactoolmounts.com](mailto:Jerry@pactoolmounts.com).

The museum also sponsors the hugely popular Lancaster Christmas Fire Truck parade.

PAC was founded on the experience of Dick Young, former President of Young Fire Equipment. His experience and innovation in the Fire Truck market is what makes PAC Tool Mounts superior. Our knowledgeable team has lifetimes of experience in the Industry. Our passion shows in our proven designs.
